

## **Introduction**

Bot Jungle is an exciting event where innovation and technology come together. Organized by the IEEE RAS CUSAT, the event offers a platform for students and technology enthusiasts to showcase their skills in robotics. Whether you're competing or spectating, Bot Jungle promises an engaging experience filled with creativity and technical prowess. The event will take place at the Software Block, New SOE, CUSAT, SDPK Hall, Cochin University of Science and Technology, providing an ideal setting for this thrilling competition.

## **Robowar**

Robowar features intense head-to-head battles where robots compete for dominance. This competition tests the strength, strategy, and durability of the participants' creations. Teams will push their robots to the limit in a series of high-energy showdowns, where only the strongest will emerge victorious.

## **Robosoccer**

Robosoccer merges the thrill of soccer with the precision of robotics. Teams control their robots in a soccer match, striving to outmaneuver and outscore their opponents. This event highlights the importance of teamwork, speed, and strategy in a game that's both competitive and entertaining.

## **Bot Jungle**

Bot Jungle is an open contest for a wide range of robots. This event encourages innovation, allowing participants to present unique designs and functions. With no strict guidelines, creativity takes center stage, making Bot Jungle a

highlight for both participants and spectators.

## **Sponsors**

The success of Bot Jungle is made possible by the generous support of our sponsors. With sponsorship packages like Diamond, Platinum, Gold, and Silver, there are multiple opportunities for involvement. These contributions not only help bring the event to life but also support the next generation of innovators.

## **About the Event Committee**

Bot Jungle is organized by a dedicated team from IEEE RAS CUSAT. The primary event committee members are:

- Rio Roy - Chair, IEEE RAS CUSAT SB
- Mohammed Shan - Vice Chair, IEEE RAS CUSAT SB
- Athul K S - Technical Head
- Varghese Selestine V J- Event Coordinator Head
- Fida AbdulRasheed - Link Representative, IEEE CUSAT SB

## **Conclusion**

Bot Jungle is more than just a competition; it's an innovation and creativity. Whether you're a participant, sponsor, or attendee, your involvement is crucial to making this event memorable. Join us at the Software Block, New SOE, CUSAT, SDPK Hall, Cochin University of Science and Technology, and explore the future of robotics.
